

Do you think this is a ridiculous poster?

Why don't you apply as a
COMMS INTERN
and help us improve!

Well, we think so too.

Looking for
Communications Intern!

We are looking for someone who:

- ❖ Is creative, open-minded, curious with a relaxed and can-do attitude.
- ❖ Loves creating visual content (videos, images...).
- ❖ Knows their way around Adobe Photoshop/Illustrator or any other open source software (like Gimp).
- ❖ Is no stranger to social media. Especially Twitter. If you know Twitter, you're like the BOSS in our book.
- ❖ Is proficient in English.

What we're offering:

- A chance to work at the [Famnit](#) International Office. You will be working with a super cool event manager who is currently managing the organization of [8th European Congress of Mathematics](#). That's no small feat. We expect an attendance of 2000 people to the Congress in July 2020, so preparations are in full swing.
- Flexible hours. We don't expect you to sit at your desk 9 to 5, because we understand creativity requires its own schedule.
- Recommendation letter from the organizers of the Congress which will look great on your CV.
- A chance to further expand your portfolio as a creator of visual content.
- Great views of the Adriatic Sea while you're taking your afternoon walk.

How to apply:

Send your **CV** and your **portfolio** showcasing some of your work to Tanja Labus (tanja.labus@famnit.upr.si) with the subject matter: "Application for Internship".

P.S. We're looking for a dream team, so multiple positions are available!
